

REVEL Repairer dietary supplements have a positive influence on mental states and reaction speed, increase IQ and slow down the progress of Alzheimer's disease. They improve overall mental condition.

# Repairer REVEL

## Product advantages

- ★ **Positively influences mental state and reaction speed**
- ★ **Increases IQ**
- ★ **Improves current state for Alzheimer's patients and blocks the disease's advance**
- ★ **Increases appetite thanks to ALFA application**
- ★ **A very strong effect immediately recognizable after the first correct use**
- ★ **Possibility of one-time use**
- ★ **Easily accessible (non-prescription), favourably priced**
- ★ **Also has been found helpful for achieving sobriety**
- ★ **Easily digested, without any known contraindications or negative side effects**

## Product Information

**Regular use** of the natural product **Repairer REVEL** is intended specifically for seniors over the age of 60 who have begun to manifest memory loss, senses of exhaustion, difficulty in concentrating, slow or inaccurate judgment, insufficient appetite for living. Increases IQ by 10 or more points (does not decrease ability to focus). Users have noted a sense of reduction in age of 5 or more years in comparison to reality, a sense of happiness, strength, and desire to live.

**One-time use** has been found useful for all age groups. It is particularly suitable for **increasing IQ** (helps with concentration), **faster reactions** (e.g. sports and games), **studying** (increases learning retention), **„scan disk“** (one-time mind-clearing), **sobriety** (reduces withdrawal symptoms).

## Use

**Repairer REVEL** is used **exclusively with ALFA application**: shortly after waking in the morning (not after afternoon naps) consume the ready **Repairer REVEL capsule** while reclining and wash it down, **20 minutes „relaxing“**, not thinking about anything in particular. During this period, **do not get up** and after this period of **20 minutes (+/- 1min)** do not go back to sleep and rise from bed. If you suffer from poor sleeping and in the early hours repeatedly wake up and fall back to sleep, determine the moment of consumption as the time of planned waking minus 20 minutes. Even in the event that you have been up for some time, the effect is still significant, if reduced.

## Dosage

**Maximally 1 capsule per day exclusively in ALPHA Application!**  
**Do not exceed the recommended dose!**

## What is Alpha Application?

*The processes that take place in the human brain still await their full description by science. From the outside, they are manifested as the emission of electromagnetic waves of various frequencies. In the professional literature, there are 4 groups of frequencies, indicated as **Alpha** (8-13Hz), **Beta** (14-40Hz), **Theta** (4-7Hz) and **Delta** (1-3Hz). From deep sleep in the frequency of up to 7 Hz, the process of waking continues through the Alpha faze, in which the self-curative processes of mind and body are set in motion. It is precisely the moment of taking the curative substance, during the transition from the **Theta to the Alpha frequency** of brain waves that is known as **Alpha Application**. Its full effect has not been completely explained, but it is evident that even ordinary curative substances taken at this moment can significantly influence your mental and physical state for the entire day, and sometimes differently or worse than the substance should be expected. For this reason, we do not recommend that you experiment too much with **Alpha Application** yourselves! On the other hand, proper **Alpha Application** could be the long-sought key to the cure, or at least the symptom reduction, of many mental illnesses, including brain damage caused by drugs or alcohol.*

20 capsules per package	
<b>Ingredients in 1 capsule</b>	
Cholin bitartrate	18,0 mg
L-citrulin	213,2 mg
L-arginin	349,0 mg
Schisandra chinensis extrakt	22,0 mg
