## Dosage

**Activator REVEL: 1x daily 2 capsules swallowed at once.** Can be taken at any time of day for feelings of tiredness or hunger, but no later than 2 hours before you plan to sleep. **This product is not to be used in Alfa application!** Do not exceed the recommended dose.

This product is easy to digest, without problems of the digestive tract. For weight reduction, it should be taken when feeling weak or hungry, possibly one capsule at a time. The product is no substitute for a balanced diet. Consumption of over 6 capsules during the day has led to higher increased sleep disturbances, which require brief vertical positioning of the body for their quick dispersal.
